Microbial biodiversity preservation, exploration  
and valorisation for a sustainable future

**WEBINAR** **27<sup>th</sup> June 2021**  
**11:00-12:00 CEST**

**#WorldMicrobiomeDay** [www.ismirri21.mirri.org](http://www.ismirri21.mirri.org) **#DiversityMatters**

The one-hour webinar will be presented by partners and experts from the IS\_MIRRI21 project with background in microbiology and biotechnology who will convey the messages based on their field and professional experiences. The event will be a combination of presentations, quizzes and videos with dedicated sessions for the audiences to ask questions and interact with the speaker.

The key objectives of the event are:

- Present how EU funded projects such as IS\_MIRRI21 are supporting the research and innovation ecosystem;
- Give an overall overview of how culture collections are used to preserve biodiversity and the roles of microbes in the sustainability of the environment;
- Discuss how microorganisms can be used by each and every citizen to create a sustainable world.
